Customer Reviews

Very easy to use and to 'take along' as it is plastic coated so it very kid-friendly! We have a lot of butterflies in our yard and it is nice to know what they are -- this saves me time from coming back to the computer and using 'google'. I ordered this butterfly guide because I saw a totally new butterfly 'to me' in our yard. I searched online and found it. I thought it would be nice to have a butterfly identifier and we keep it right next to the bay window. Funny thing, the 'new to me' butterfly we spotted happens to be a Zebra Longwing and they are not particularly native to my area -- so they are not in this 'guide' -- but we do have lots of them! Good information about all species of 'southern' butterflies. We use this nearly every day in warm weather.
