Customer Reviews

Loved it, love it, and will always love it, it is the formation for my love of War Hammer 40k and though the rules are a bit outdated, it is still awesome for pictorial reference of the miniatures

this is a good book if you are getting started in warhammer 40k as it has all the rules for battle, characteristics and the special rules that you just can't find in your army book. it is about 200 pages long and it is packed full with rules that you will need to get started in gaming. a must buy for warhammer 40k or GW fans

As I understand it, this is not the Fifth Edition Warhammer 40k rulebook. Buyers be careful, as the product information says this is Second Edition. Make sure you are getting what you want, not what you think is being sold.

this book is great for people starting warhammer or for those who don't want to spend \$110 on the boxed set

Had a hardcover edition of the rules for this way back when, detailing the rules of battle for encounters between scary aliens, and far scary religious nut space marines, with all sorts of nasty

weaponry.
