Customer Reviews

I take literally HUNDREDS of 4th - 6th grade students each year to an area rock bar as part of a geology lesson. This book is such a fantastic resource for helping them identify what they have found. THANK YOU to the Dale and Bob Lynch for making such a great book!

Another helpful guide for my children and I. They have become "rock hounds." This book has great pictures!

Great info and pictures to help beginners like me identify. Good value. I bought one for my mom also.

Great book with clear pictures and loads of information- this was a Christmas gift, and it was a hit!
