# BattleTech: The Future Of Warfare: Technical Readout 3058

Synopsis

Tanks! Mechs! & more ! Incredible discoveries of ancient, long-buried Star League records have uncovered dozens of BattleMech and vehicle designs thought lost to antiquity. Re-tooled for the 31st century, these blueprints have produced the latest and most effective weapons in the Inner Sphere's life-or-death struggle against the invatind Clans. BattheTech Technical Readout: 3058 provides illustrations, descriptions and game statistics for these classic units and for th enew Inner Sphere and clan BattleMechs, including modular BattleMech designs featured in full color. Technical Readout:3058 also offers a host of tanks, hovercraft and other armored vehicles upgraded with the latest weapons and equipment.

Customer Reviews

I realy like the Turkina, and the Kodiak(but the pic for the Kodiak stinks). However the rest are a little bland for my taste. If you get only one tech readout, get 3060, but if you get two, get 3060 and 3058.

There are some of the best available 'mechs in this book, clan and IS, and although some of the pictures stink, they are mostly of hansome 'mechs.The vehicles are good, some even appealling enough to use. There are some excellent 'mechs and vehicles in this book, their write-ups are good and there are pictures that, if not excellent, do portray the look of the 'mech well enough. This is a good TR to buy, but perhaps shouldn't be your first.

It gives the stats and backstory to the mechs.Much information is missing (it has more than 10

heatsinks? Good luck knowing where the others are located!)But still worth having if you have much interest in the lore of the series.
