# The Little Seagull Handbook, 2nd Edition

## Synopsis

A pocket-sized handbook that's easy to use and covers the kinds of writing college students need to do. The Little Seagull Handbook offers the kind of succinct advice students need about grammar, punctuation, documentation, and the writing process. In addition, it covers the kinds of writing they are most often assigned: reports, analyses, narratives, and more. The second edition includes unique help for students whose primary language is not English. Available in two versions: with and without exercises.

## Book Information

## Customer Reviews

Great book that is easy to follow. Needed help with correct citation and writing layout. I know there are tons of cite builders online but my Professors all approve of this book's instructions over online citation creators.

I will keep this FOREVER! This book will come in handy for the rest of your college experience! Every time I go to write a paper! I use this book to overlook it and make sure everything is grammatically correct and I'm ready to turn in my paper!

Buy this book. It is not worth it just to rent this book. If you are in college this book is going to come in handy the entire time you are in school

Wish I had this book when I was still teaching composition. Now I work with students in a college writing lab, and I use it often to show students how to write something in an APA, Chicago style, or MLA format. The color coding is so helpful.

I needed a guide book on proper citation and MLA format and this did the trick. I was able to use this book to reference proper grammar also, which I can always use help in that. Even though it was a requirement for class i'll probably hold on to it for when my kids get to English grammar.

Bought this book because it was a requirement for a writing class, but I am actually using it outside of the class! Great little tool for quick questions about writing or if you need to look something up.

great pricepackaging was very protective for book and it was sealed very well/this book is in great shape looks brand new.I got it for our daughter who is a nursing student at washburn university. she is going to use it in their junior composition class with the nursing effence

This book is in fantastic condition and will be very helpful to me in my first semester class! I got it at an exceptional price compared to my bookstore price and that is super awesome. Used books are definitely the way to go!! Overall i am very satisfied with this book
