Customer Reviews

This book is poorly written. The language and misspelled words make it seem as if written by a fifth grader with a C in English. The book is written with subtopics on each destination. The arrangement does not flow well and makes it a very choppy read. There is not even enough history given on most places to justify wasting time on this book. It is also a very thin book written in large type with lots of blank space, so there is literally not much to this title.

If you are a fan of paranormal things and you like to read horror stories and even more when they are real stories, I recommend this book, I'm not going to lie the whole book is not perfect, but can rescue much of its content, reading it was like a roller coaster moment I was frightened continue reading as there were times it was very boring and I skipped some pages ... but it's nice!

I am so much excited once I am reading an Ghost stories. I am scared of Ghost but I like the story of it. Yeah, it is so much thrilling and suspense but the whole story is good and well written. Definitely, I loved it! Author does a great job writing this awesome book. Will recommend this to everyone!DISCLAIMER: I received this book as a gift, from my friend.

If anyone founding for real story of ghost so this book should the perfect book for them it's really good book about ghost

Now this is a very good, with some really creepy stories about ghosts, hauntings and haunted places, I have always loved this kind of readings, they are my favorite to entertain myself, and this book is a very good example of it, it's very well written and the stories I found them to be really good, I enjoyed reading this book.

When I was young, I can always encounter with the spirit people. i can even feel and sometimes see them. That is why I love to read ghost stories to know what other people experienced their unexplained mysteries. I really enjoyed reading this book even that some are really frightening stories. This book really made my night full of horror stories to share with my children.

It's was a fun, fast, informative book.I really like the way the author wrote this book. It makes you

feel like he is telling you these stories directly. I was really surprised by all the haunting so at the White House. Now I have to "investigate that further" ! Ha

In my opinion, this collection of true ghost stories far surpasses anything I've thus far read, ever! I read quite a lot and I'm usually on the hunt for a good ghost story. My attention was held...and so was my imagination. If I could give these stories a rating of 10 stars, I most definitely would do so.â°
