Customer Reviews

The DVD is not about sharks, which is disappointing, but the book is great. My 5yr old loves it. The most interesting episode on the dvd is 'Breaking the Ocean Code' which shows a shark or two though sharks are definitely not the subject matter on the DVD.

Nice book on sharks... the DVD not so much. Too technical. Wanted to see all the fish and sharks underwater. Instead it focused on large machinery used under water.....

The book is good, but the DVD only has one shark for about 5 seconds. And I had to hear 400 times "where are the Sharks?!"

Absolutely beautiful pictures and information on sharks. A must have for kids that love sharks !!!

My daughter loved this book, she is a huge fan of sharks and this provides a lot of information.

The book is wonderful, but the dvd has nothing to do about sharks.

My son loves the book and the movie. The movie really isn't about sharks but he still loves it.

My 5 year old nephew just loves sharks and this was a perfect birthday gift for him.
