# Island Of The Blue Dolphins

## Synopsis

In the Pacific there is an island that looks like a big fish sunning itself in the sea. Around it, blue dolphins swim, otters play, and sea elephants and sea birds abound. Once, Indians also lived on the island. And when they left and sailed to the east, one young girl was left behind. This is the story of Karana, the Indian girl who lived alone for years on the Island of the Blue Dolphins. Year after year, she watched one season pass into another and waited for a ship to take her away. But while she waited, she kept herself alive by building shelter, making weapons, finding food, and fighting her enemies, the wild dogs. It is not only an unusual adventure of survival, but also a tale of natural beauty and personal discovery. --This text refers to the Audio Cassette edition.

As a child, my grade school librarian wore out from me asking to borrow so often. Later, as a private tutor, my students chose this again and again. "Island of the Blue Dolphins" lives up to its reputation as one of the greatest children's book ever. Libraries are good for borrowing books, but some books should be on the shelf of any young reader. Scott O'Dell's magnificent "Island of the Blue Dolphins" is just that. Save your librarian some grief and buy a copy. "The Island of the Blue Dolphins" is not the story of a foolish young girl who missed the boat when the island was being evacuated. Far from it. Karana was on the boat. Her playful little brother, Ramo, wasn't. He was only 6 years old and could never survive alone. She jumped off and headed to shore to save him. The boat left. Every little girl or boy has been alone, frightened without a clear way of finding his or her way home. Often, the problem is fixed by turning the next corner, finding out it is the same neighborhood it has always

been. In the case of "The Island of the Blue Dolphins," Karana's home never changes. Everyone she knows and loves, however, leaves. For 18 years Karana took care of herself, and she grows from a preteen child into a woman just entering her 30s. This is that story, filled with adventures similar to "Robinson Crusoe," another true story set to fiction. Fans of "Swiss Family Robinson," will likewise enjoy this. Karana's ingenuity to survive is surpassed by her tenacity and hope. Weathering hard circumstances, such wild dogs, storms and the constant need to find fresh food and good water. She uses what she learned from her parents and other villagers before she left, and what she learns by trial and error. As exciting as "Treasure Island," only with a female protagonist, the book is more than a tale of heroics. Scott O'Dell's keen sense of description separates this from the rest of the bookshelf. Although sensitive that his reader is younger, he still manages to place the reader in the story, imagining the smell of sea or hearing the not-so-far off bark of wild dogs. Like other classics as "Old Yeller" and "My Brother Sam Is Dead," not everything comes easily to Karana. There are somber times when people leave, when her brother dies, or when things look bleak. O'Dell tells the story as realistically as he can, which makes the happy times happier. I fully recommend "Island of the Blue Dolphins," by Scott O'Dell. It won "The Newberry Medal for Best Children's Book" for good reason. Anthony Trendle, editor, HungarianBookstore.com

I am old enough to have had this book read to my elementary school class when it was still fairly new. It is a book I have remembered ever since. What is known is that in 1853 a lone woman was "rescued" from San Nicolas Island off the coast of California. The rest of her tribe had been evacuated eighteen years before, but no one who spoke her language remained after those years had passed. Thus she could tell no one her story, save the little she communicated to a priest with gestures, and she became ill and died after a few weeks. From this bit of history Scott O'Dell imagines a life for her. It is, of course, fiction, and certainly doesn't match her real life. But he thoughtfully explores a couple of challenging topics: What happens when cultures meet and compete over resources? And how can a stranded adolescent learn to survive alone and to grow up with nothing but memories of her people and culture to guide her? It is a very touching story of loss, learning, and self-recreation. Some parts of the story I remembered these forty-some years later, and many parts I did not. But I was glad to again make my acquaintance with this book. The writing is leisurely but engaging. It may be too slowly paced for many children today, who have grown up with frenetic action, short attention span entertainment. But surely there must still be those more contemplative young souls who will warm to this wonderful book.

If you like heart breaking, touching, and sad books, you should definitely read the *Island of the Blue Dolphins* by Scott O'Dell. It's about an Indian girl who gets separated from her family and is stranded on an island. Now she needs to survive. Difficult challenges face Karana. For an example, she needs to find a way to hunt so she can eat. She makes a spear out of wood and carves a rock in a shape of a triangle and catches fish to eat. This book made me feel sad for kids who are orphans and who live on their own. This book was so terrific that I read it in only two days! I would recommend this book to people of ages 8-150. And I think girls and boys would like this book because it is not too scary, it is just the perfect book to read. I read it, my mom read it, you should read it too.

After a series of violent and bizarre events, a 12-year-old native girl suddenly finds herself alone on an islet off the California coast at the dawn of the 19th century. Her people have been massacred by hostile Aleuts who arrive annually to hunt the sea otter. Their new chief manages to convince white men to return for the survivors, but she sacrifices her rescue in order to be with her little brother. When he is killed by wild dogs, Karana must face overwhelming odds of loneliness, gender ignorance and tribal tabus, in order to survive without human companionship for 18 years. O'Dell has depicted a realistic and interesting story--one with little dialogue but which holds the reader's attention. Based on actual fact about the Lone Woman of San Nicholas Island, this tale reveals how Karana came of age without any witnesses; she learned to rely on herself and her pet dog to keep busy, healthy, and safe from human predators. For almost two decades she carved out a life for herself on this islet, until she was ultimately rescued by Spanish missionaries. With her departure a Native American lifestyle vanished into the mists of time, for her entire village had blended in or died out in the intervening years. Karana battles against hunger, the ocean, wild dogs, and treacherous Aleuts, plus hostile natural phenomena. Yet she also discovers the value of friendship and man's responsibility to protect wild creatures. This is a good survival tale for boys as well as girls to read, as all humans can relate to the innate need for socialization. It makes an excellent springboard for discussion of Native Americans, the Spanish Mission system and the fragile balance of cross-cultural shock. Karana kept faith with the Rock.
